NEAPCO DESIGNS AND MANUFACTURES QUALITY PRODUCTS THAT ARE BEST SUITED FOR YOUR APPLICATIONS

Neapco's steering products are used in many different markets. The steering components generally utilize a variety of small series u-joints. Neapco offers greaseable u-joints, permanently lubricated u-joints and "Low Lash" u-joints. Some common applications include universal joints and shaft assemblies for:

- Heavy, Medium, and Light-Duty Trucks
- Buses
- Passenger Cars
- SUV's
- Combines
- Tractors
- Other Self-Propelled Farm Machinery
- Off-Highway and Construction Vehicles
- Electric Vehicles

- Golf Carts
- ATV's
- Utility Vehicles
- Grounds-Care and Turf Equipment

Neapco offers many styles of yokes to interface with the vehicle. Some standard connections include spline, d-flat, and clamp yokes. Neapco can provide fixed length shafts or incorporate precise telescoping members.
